

BOSTECH DRILLING AUSTRALIA

Industry Leaders in Aircore

CAPABILITY STATEMENT

BOSTECH DRILLING AUSTRALIA

Established in 1993, Bostech Drilling Australia has developed a strong reputation throughout Australia as one of the leading forces in exploration drilling.

With over 30 years experience, we are the industry leaders in Aircore.

Core Services

- Aircore
- Slimline / Light RC
- RAB
- Zero Impact

Drilling Capabilities

- Mineral Exploration
- Remote Locations
- Mobile Accommodation
- In-House Engineering & Manufacturing

Health, Safety & Environment

At Bostech, we are committed to exceeding our obligations under the relevant Acts, Regulations, Standards and Code of Practice in each and every work.

Bostech take all reasonably practicable measures to eliminate or minimise the risk to the physical and mental health, safety and well-being of our employees and clients.

CAPABILITY STATEMENT

Core Values

SAFETY

Our aim is to provide a safe working environment and to prevent injury and ill health to our employees and clients.

INTEGRITY

We practice being honest and showing a consistent and uncompromising adherence to strong moral and ethical principles and values.

INNOVATION

Bostech uses innovation on its processes, saving time, money and a competitive advantage over other drilling companies.

RELIABILITY

Our on-going efficiency allows for reliable machinery, reliable availability of staff which sets us apart from everyone else. We commit openly and wholeheartedly to providing reliable service to our clients.

RAB / Aircore

Engineered and manufactured drill rigs designed specifically for RAB Aircore drilling. From unconsolidated mineral sands to deep paleo channels, these rigs are capable of drilling the most challenging formations.

Slimline / Light RC

Compact and powerful, our slimline Reverse Circulation rigs are easy to manoeuvre which makes them ideal for lower cost Reverse Circulation drilling in pits for grade control, sterilisation and sampling of basement during Aircore programs.

Zero Impact

Zero Impact drilling can be carried out in environmentally sensitive areas including farmers paddocks, forest areas and nature reserves.

Specifically designed to eliminate or minimise ground contamination, leaving behind a zero impact footprint.
